Il progetto PON dal titolo "My newspaper on line" è stato realizzato nell'anno scolastico 2021/22 dal 4 Maggio al 6 Giugno. Le 30 ore di formazione extracurricolare sono state svolte dagli esperti Mrs Charmaine Giaimis e Mr Bruno Pires dell'Accademia Linguistica Internacional di Barletta in collaborazione con la docente

tutor prof.ssa Concetta Maiurro e la referente per la valutazione Francesca Cavaliere. Destinatari del progetto 29 alunni delle classi seconde della Scuola Secondaria. I ragazzi hanno affrontato questo percorso con grande senso di responsabilità, consapevoli della preziosa opportunità di poter migliorare le loro competenze linguistiche. Non solo, fare lezione con docenti inglesi ha per-

messo loro di sperimentare un approccio e una modalità di insegnamento diversi e migliorare le quattro abilità linguistiche di reading, writing, speaking e listening. Questo numero speciale

del Giornalino Scolastico del nostro Istituto è il risultato del lavoro realizzato in queste 30 ore dagli alunni i quali hanno collaborato attivamente alla stesura degli articoli del presente numero. Agli alunni un grande plauso

per aver colto con entusiasmo questa proposta formativa e per aver sempre mostrato impegno, curiosità e voglia di approfondire.

Buona lettura!

GOOD NEWS!

Is there anything you like about your school?

In this term at Musti-Dimiccoli school something amazing is happening, after a long time restrictions due to covid have decreased, and because of this we have started taking trips and taking up other activities such as English PON.

We met new people and new words, of course in English, that gave us kids the opportunity to get to know new cultures and to deepen our knowledge of the English language. Thanks to this PON, on our school website there will be a magazine that will tell the gossip of the Royal Family, sport, food, opinions on books, films and music and much more.

THE FINAL

School sport

What is handball?

Handball is a group sport that is played on schools. In ours, we decided to do an institute tournament.

For each team there are 7 players, including 1 goalkeeper.

What are the teams?

To make teams we divide classes into groups and challenged each other. There were 4 teams: A,C,D,E. But only 2 teams made it to the final, D and C which will meet on June 6th to decide who is the strongest.

Who do you think will win?

Even though C appears to be stronger, D is very determined, so we can't be certain as to who will win the final.

SPORT

SPORT AROUND THE WORLD

FOOTBALL

Why is called football?

It is widely assumed that the word "football" (or "foot ball") references the action of the foot kicking a ball. There is an alternative explanation, which is that football originally referred to a variety of games in Medieval Europe, which were played on foot.

Our School News

OPENDAY'S PARTY

On 18th December 2021, it was organized a party in the schoolyard. The secondary school students have participated with their English teachers. At the party they sold things, like bracelets, British cardboard guards, necklaces, Christmas crackers and bookmarks made of paper. A group of students played musical instruments and acted. The party was created because it served to introduce secondary school teachers to primary school children.

A MEETING WITH THE AUTHOR

On the 16th of May, in the red room of the castle of Barletta, classes A, C and D, had a meeting with **Daniela Palumbo**, author of the book "**Sotto il cielo di Buenos Aires**" ("Under the sky of Buenos Aires"). She talked us about how her passion for writing was born and she also transmitted to us the emotions she feels when she reads. Daniela interacted a lot with us: we asked questions, for example "In which chapter in your book do you see yourself the most, and why?" We also asked questions about her childhood and private life and she was really happy to be able to answer them. Finally she also wrote us some very sweet dedication (for * name * with sympathy and friendship, Daniela Palumbo). We enjoyed very much the day spent with her and we are passionate about her book.

This party was very cool and funny!

ROYAL GOSSIP

DID YOU KNOW THE HOBBIES OF QUEEN ELIZABETH UNTIL TODAY? HERE IS A LIST!

We all have hobbies, mine for example are History and playing the guitar. Even Queen Elizabeth herself has one, in fact, many more than one. At the age of 96, the Queen counts amongst her hobbies: horses (despite of her age she still goes for long horse rides), hunting and collecting stamps, among the best known.

While among the less known there are also collecting pepper mills and TV binge watching where she is a veteran. The Queen got the passion for stamps from her ancestor, Giorgio V, to whom she pays tribute by continuing the tradition and filling more than 300 albums and 200 boxes. It so happens that the Queen also sells stamps, to buy more. There is also the paper mill, a gift she usually receives from relatives and friends - she says to prefer them colorful, unusual and above all fun. She does not want them to end up on the table.

[Have you got any hobbies? What are they?](#)

But especially even your hobbies have family origins so old?

BOOKS

“BEFORE THE COFFEE IS HOT”

“Before the coffee is hot” is a book by Toshikazu Kawaguchi, published in Japan in December 2015. The book has climbed to the top of the charts in the last 3 years.

The book is simple to understand... There are 5 rules to follow:

1. You are in a special coffee shop. There is a single table and it is just waiting for you.
2. Sit down and wait for the coffee to be served to you.
3. Get ready to re-live an important moment in your life.
4. While doing this, remember to enjoy the coffee in small sips.
5. Don't forget the fundamental rule: don't let the coffee

cool down for any reason!

Having read this book I want to give personal views ... the book interested me right from the plot, especially from the curiosity to know what would happen if the coffee had cooled down. It is a small book that conveys great profound meanings, such as the rule of having to taste coffee: it becomes a metaphor about life, which must be savored in small sips, because the past cannot be changed, but the future is what really matters.

AN INTERVIEW TO OUR HEADMISTRESS

Why did you decide to do this job? Because, after having worked as a teacher for 20

years, I was looking for a change and a new challenge. Do you like being in contact with students? I am in contact with many students and they often send me very nice messages. Some came to visit me at Musti. Recently I had a very pleasant experience because I attended a dinner with students who graduated 25 years ago. What led you to do this job? Because I thought that, thanks to my long experience as a teacher, I could direct a school trying to give the right support to students, families and teachers. What did you dream of becoming as a child? When I was a child I wanted to be a teacher so, in fact, I partly realized my dream. If you could go back in time, would you choose this

job again? Yes, I have never regretted my choice. Now, to tell us something about your hobbies; have you ever played an instrument? If not, would you like to? My first hobby is art. 'I love to watch art documentaries and specials on tv and when I plan my holidays I always look for some museums or exhibitions to visit. I also love reading but recently I haven't had much time to do so.
